Dated the 13th February 1945.

Despatch Abstract.]

INDUSTRIES - Sericulture - Kollegal Silk Filatures, Kollegal - Installation of rereeling machinery - Sanctioned.

***

Extracts from Record Note of the Quarterly Meeting of the Silk Conference at Bangalore held on 16-10-1944.

---

6. Installation of re-reeling machinery: It was decided after discussion that re-reeling would improve the quality of silk and consequently its value at a comparatively low cost. Mr. Peychaud estimated that the capital expenditure in connection with the Government Silk Factory would be Rs. 25,000 for the machinery and Rs. 8000 for the buildings at the outside. M/S Targett and Chanda agreed on behalf of the Supply Department to meet this expenditure. It was recommended that the Madras Government might incur similar expenditure on the Kollegal Silk Filatures. It was gathered from Mr. Peychaud that labour costs would actually come down since a part of the labour now employed to open out and clean the ~~Cocoons~~ Cocoons could do the re-reeling. It was also resolved that two men should be sent by the Madras Goverment to Calcutta for being trained in the testing of silk.

Sub: Government Silk Filature and Kollegal Silk Filature, Kollegal Installation of rereeling machinery - sanction regarding.

Ref: Government Endorsement No. 53479.D/44-4 dated 16-11-44.

I invite a reference to para 6 of the Record Notes of the quarterly meeting held at Bangalore on 16-10-44 wherein the representatives agreed on behalf of the Supply Department to meet the expenditure of Rs. 25000 for the installation of rereeling machinery and Rs. 8000 for the buildings in the Government Silk Filatures, as estimated by Mr. Peycnaud and also recommended that the Madras Government might incur similar expenditure on the Kollegal Kollegal Silk Filature, who was asked to submit definite proposals in regard to the installation of rereeling machinery at the ~~Kmx~~ Kollegal Silk Filature, reports that the necessary machinery can be installed without constructing additional buildings to house them as they could be accommodated in the existing silk cleaning and silk store rooms and in a part of the cocoon godowns. It is proposed to have 100 reels in two rows of 50 each, each reel capable of accommodating 4 hanks to re-reel all the hanks that come of the 150 basins in a day. It is possible to get various parts of the machinery from some of the firms dealing in silk machinery in about three months' time, at a cost not exceeding Rs. 10,000 vide estimate attached.

I request that Government may be pleased to accord sanction to incurring of an expenditure not exceeding Rs. 25000 for the re-reeling machinery and Rs. 8000 for the buildings to house them at the Government Silk Filature and also sanction for incurring a expenditure not exceeding Rs. 10,000 for installing the re-reeling

machinery at the Kollegal Silk Filature. 14

The expenditure in respect of the Government Silk Filature is debitable to 85-A Capital outlay on Provincial Schemes connected with war, 1939 - C. Other miscellaneous Schemes - F. Govt. Silk Filatures - Kollegal - 6. buildings, plant, machinery and other equipments, and that in respect of the Kollegal Silk Filature to "G Kollegal Silk Filature, Kollegal.
